AIR CONTAMINANT DISCHARGE PERMIT (ACDP)

Issued in accordance with provisions of Title 34, Lane Regional
Air Pollution Authority's Rules and Regulations, and based on the
land use compatibility findings included in the permit record.

Issued To:
Quality Metal Finishing
1260 Wallis Street
Eugene, Oregon 97402

Land Use Compatibility Statement:
From: City of Eugene
Dated: March 13, 2001

Mailing Address:
1260 Wallis Street
Eugene, Oregon 97402

Fee Basis:
Table A, Part II, 73
Electroplating, Polishing, and Anodizing

Permit Number: 207003
Permit Type: Letter
SIC: 3471
Date Issued: July 6, 2001
Expiration Date: July 5, 2006

Permitted Sources:
Plating Operation including:
Tanks Containing Zinc,
Tanks Containing Nickel,
Tanks Containing Acids, and
1 Natural Gas-fired Water
Evaporator

Issued
By: _____
 Brian L. Jennison Ph.D., Director

Effective
Date: _____

Permitted Activities

1. Until this permit expires or is revoked, the permittee is herewith allowed to discharge air contaminants only in accordance with the permit application and the requirements, limitations, and conditions contained in this permit. This specific listing of requirements, limitations, and conditions does not relieve the permittee from complying with all other rules of Lane Regional Air Pollution Authority (LRAPA).

Emission Unit Description

2. The emission units regulated by this permit are various tanks containing acids, zinc and nickel and one (1) natural gas-fired water evaporator.

General Emission Limitations

3. The permittee shall not cause, suffer, allow, or permit the emission of any air contaminant, excluding uncombined water, into the atmosphere from any air contaminant source for a period or periods aggregating more than three (3) minutes in any one (1) hour which is equal or greater than 20 percent opacity. [LRAPA 32-010(1)(B) and (3)]
4. Particulate emissions shall not exceed 0.1 grains per dry standard cubic foot (dscf) from any air contaminant source constructed or modified after June 1, 1970. [LRAPA 32-015 (2)]
5. The permittee shall notify LRAPA in writing and obtain approval in accordance with LRAPA 34-035 before:
 - a) constructing or installing any new source of air contaminant emissions, including air pollution control equipment; or
 - b) modifying or altering an existing source that may significantly affect the emissions of air contaminants, or
 - c) making any physical change which increases emissions; or
 - d) changing the method of operation, the process, or the fuel use, or increasing the normal hours of operation to levels above those contained in the permit application and reflected in this permit and which result in increased emissions.
6. A copy of the permit application and this Air Contaminant Discharge Permit (ACDP) must be available on site for inspection upon request.
7. The permittee shall allow the Director or his/her authorized representatives access to the plant site and pertinent records at all reasonable times for the purpose of making inspections, surveys, collecting samples, obtaining data, reviewing and copying air contaminant discharge records and otherwise conducting necessary functions related to this permit in accordance with ORS 468.095. [LRAPA 13-020(1)(h)]
8. All plant processes discharging air contaminants and all air contaminant collection and disposal facilities shall be operated and maintained at

all times in a manner which shall minimize air contaminant discharges.

Renewal

9. The permittee must submit updated emission calculations with the application for renewal of this permit.

Fee Schedule

10. In accordance with adopted regulations, the permittee will be invoiced for a filing fee in the month prior to the expiration of this permit.
11. Unless otherwise specified, all reports, test results, notifications, etc., required by the above terms and conditions shall be reported to the following office: [LRAPA 34-070 (5)]
