

LANE REGIONAL AIR POLLUTION AUTHORITY
AIR CONTAMINANT DISCHARGE PERMIT
MINIMAL

REVIEW REPORT

Viking Concrete, Inc.

Permit No. 208661

PERMITTING

Permitting Action

1. Renewal of an Air Contaminant Discharge Permit which was issued on July 1, 1995 and was originally scheduled to expire on June 30, 2000. The permit covers a ready-mix concrete plant.

Other Permits

2. No other permits have been issued or are require by LRAPA for this source.

Attainment Status

3. The source is located in an attainment area.

SOURCE DESCRIPTION

Overview

4. The permittee operates a ready-mix concrete plant whose emissions are controlled by a baghouse.
5. No changes have been made to the facility since the last permit renewal.

Process and Control Devices

6. Existing air contaminant sources at the facility consist of the following:
 - a. Storage silos
 - b. Concrete plant for transfer to mixer trucks

EMISSIONS

7. Emission calculations are as follows:

Pollutant	Annual Throughput	Emission Factor (DEQ)	Emissions (tons/yr)
TSP	50,000 yd3	0.02 lbs/yd3	0.5
PM ₁₀	50,000 yd3	0.003 lbs/yd3	0.1

MINIMAL PERMIT DETERMINATION

8. LRAPA has determined that the source qualifies as a minimal source for the following reasons:
 - a. Emissions from this source are less than 5 tons per year of particulate matter.
 - b. LRAPA will verify operation of the facility is in compliance with applicable requirements.
 - c. There have been no enforcement actions taken against this source by the Authority.

SPECIAL CONDITIONS

9. None.

NESHAPS/MACT APPLICABILITY

10. This source is not within a category for which a NESHAPS standard is to be promulgated.

NSPS APPLICABILITY

11. This source is not subject to New Source Performance Standards (NSPS).

REPORTS

12. The permittee is required to keep production records on site, and to make these available to LRAPA staff upon request. An annual report summarizing these records must be submitted to LRAPA.

PUBLIC NOTICE

13. The proposed emissions in this permit renewal are still less than the minimal permit criteria (5 tons per year PM). The draft permit was placed on public notice from May 28, 2001 to June 28, 2001. No comments were submitted during the 30-day comment period.
