Re: Emissions Reporting for Calendar Year 2011 for
Lane County Sources Subject to Title V

Dear Title V Source:

In accordance with OAR 340-220-0010 through 0190, all major sources subject to Title V are required to submit annual emission reports on forms provided by Lane Regional Air Protection Agency (LRAPA) - Federal Operating Permit Fee Forms (Form Series F1101 through F1106). These forms are available on the LRAPA Web Page (www.lrapa.org). Please contact me at (541) 736-1056 x210, or colleen@lrapa.org, if you prefer a hard copy or want the forms e-mailed to you. Forms obtained from the Oregon Department of Environmental Quality (ODEQ) may also be used.

Emission Reports for calendar year 2011 are due no later than **March 15, 2012**, and should be submitted to LRAPA at 1010 Main Street, Springfield, OR 97477. Emission fees will be assessed at the 2010 rate per ton for each regulated pollutant emitted (\$55.11) plus the CPI (Consumer Price Index) adjustment. An annual base fee, which will also be the 2010 rate (\$7,289), plus the CPI adjustment, will also be assessed for each source subject to the Title V program.

Sources will be invoiced for 2011 emissions after July 1, 2012. Fees are payable to LRAPA by August 2, 2012, or 30 days after LRAPA mails the emissions invoice, whichever date is later. Emission fees and reporting for subsequent years shall be in accordance with OAR 340-220-0110.

If you have any questions regarding the forms or fees, please call me at (541) 736-1056, x210. If you have questions regarding the emission reporting requirements, please contact either, Max Hueftle (x231), Matt Lee (x221) or Sandy Lopez (x230).

Sincerely,

Colleen Wagstaff
