Re: LRAPA Approval of Cleaner Air Oregon Modeling Protocol and Risk Assessment Work Plan
Updated September 7, 2023

Dear Doug Maples:

LRAPA has completed the review of the Cleaner Air Oregon Modeling Protocol and Risk Assessment Work Plan (MP/RAWP) submitted by the facility on September 7, 2023 for Emerald Forest Products – Plant #1 (EFP1- Source Number 202528). The September 7, 2023 submittal from EFP1 was in response to LRAPA's August 24, 2023 request for updates to the Cleaner Air Oregon Modeling Protocol and Risk Assessment Work Plan submitted on July 5, 2023. The Modeling Protocol and Risk Assessment Work Plan submitted on September 7, 2023 is approved by LRAPA with this letter.

The next step in the CAO review process is for EFP1 to complete a Level 3 Risk Assessment under OAE 340-245-0050(10) and submit the modeling inputs and results to LRAPA no later than February 29, 2024.

Let us know if you need any further information or assistance, or if you would like to meet to discuss. Failure to provide additional information, corrections or updates required by LRAPA may result in a violation of [OAR 340-245-0030](#)(1). LRAPA appreciates EFP1's efforts in complying with Cleaner Air Oregon.

Sincerely,

Max Hueftle, P.E., BCEE
Operations Manager
