## HOME WOOD HEATING CURTAILMENT PROGRAM *2021/2022*

Even with an exemption, smoke levels are *always* limited to the city's *opacity limits*. Please make sure that the opacity levels of the smoke from your chimney or stack remains transparent and easy to see through. The smoke should be barely visible at the outlet of your chimney or stack when you are using dry wood and burning hot and clean.

**The Oakridge ordinance 920 allows for up to 20% opacity, meaning it should be fairly easy to see through the smoke plume.** 100% opacity means the smoke plume is a solid color and one is unable to see through the plume. At 10% opacity one is able to barely detect smoke emissions. At 20% opacity a faint smoke plume would be identifiable.

**Even when burning on a Red day with an exemption, you are expected to burn clean and not exceed the 20% limit.**

### EXEMPTION APPLICATION

This application is for an exemption from the prohibitions contained in the LRAPA's HomeWood Heating Curtailment Program for the areas **outside of Oakridge City Limits but inside the Oakridge Urban growth Area.**
