

Write your answers to the questions on the answer sheet in the spaces provided. If you need more room, attach another piece of paper.

1. Indicate (yes or no) whether the plant will be *operated* as a portable unit.
2. Give the date (month/year) that operations began at the plant's current location.
3. Give the manufacturer's name and the date (month/year) the plant was manufactured.
4. Identify the type of batch plant operation.
5. Indicate the source of electrical power. If power for the plant will be provided by a generator at any time, complete form AQ213.
6. Indicate the projected maximum hours of operation during the primary operating season (May – Oct). In the space marked "Secondary Schedule", indicate projected hours of operation during the off season. Enter the projected maximum total hours of operation per year for the coming permit term.
7. Enter the manufacturer's rated design capacity for the plant, in cubic yards per hour.
8. Enter the highest anticipated rate of operation for the plant in cubic yards per hour over the next 5 years.
9. Enter the highest anticipated rate of operation for the plant in cubic yards per year over the next 5 years.
10. Describe how you will control the dust from plant site operations.
11. Discharges of used process water or storm water can lower the quality of water bodies and/or increase the load to a community's wastewater treatment system. The questions here are self-explanatory.

Facility Name: _____ Permit Number: _____

Plant Information

- 1. Portable plant? (yes/no) _____
- 2. Date installed at current location _____
- 3. Manufacturer and date manufactured _____
- 4. Truck mixed, central mixed, or dry batch? _____
- 5. Plant electrical power supply (e.g., on-site generator or electric service company). If generators are used, complete form AQ213. _____

Projected Operating Schedule

6. Hours of operation:

	Hours/day	Days/week	Weeks/year	Total hours/year
Primary schedule				
Secondary schedule				

Production Information

- 7. Design capacity (cubic yards/hour): _____
- 8. Projected maximum cubic yards/hour _____
- 9. Projected maximum cubic yards/year _____

Dust Control Information

10. You will be required to control dust at the plant site, including dust from product manufacture, receipt, movement, and loading of materials, and dust from interior and access roads. Describe how you will accomplish this.

Waste Process Water

- 11. A permit to discharge and/or store process wastewater may be required. Do you have, or have you applied for such a permit from DEQ? (yes/no) _____
- If “no”, have you contacted your Region’s water quality section? (yes/no) _____
