Re: Cleaner Air Oregon Testing and Sampling

Dear Georgia Baxter:

LRAPA has reviewed the responses and revised Liquid Sampling Plan submitted by J.H. Baxter (JHB) on January 22, 2021 and is approving the plan. LRAPA agrees with JHB's intentions to complete the liquid sampling by February 15, 2021.

Additionally, LRAPA agrees that JHB's responses to our requests for additional source testing is sufficient to move the CAO risk assessment process forward. LRAPA looks forward to discussing timing and details of the testing.

Please communicate any questions or clarifications regarding the above comments in order to provide timely and complete submittals. LRAPA is available to collaborate with JHB during this timeline to review sequenced sections of the Emission Inventory and underlying preparatory work.

Let me know if you need any further information or assistance.

Sincerely,

Max Hueftle
Permit Section Manager
