Springfield, OR 97477

Dear Mr. Hueftle;

Hexion Inc.'s ("Hexion") Springfield site (the "Site") is in receipt of your letter dated January 4, 2021 that was received on January 8, 2021. The letter serves as the official "call in" for the Cleaner Air Oregon (CAO) toxics program. Based on the next steps outlined in this letter, Hexion must submit the CAO call in fee of \$10,000 by February 3, 2021. Additionally, the Site is required to file a completed CAO Emissions Inventory Form (AQ405CAO) by April 4, 2021.

Hexion is officially requesting a 90-day extension to submit the CAO Emissions Inventory Form on Monday, July 5, 2021. Hexion will still submit the call in fee by February 3, 2021.

Currently, the Site is working with the US EPA to conduct a "new owner audit." This audit will assess and review the emissions and reporting associated with the Toxic Release Inventory (TRI) report. The results of this audit may impact the calculated emissions needed to submit the CAO Emissions Inventory Form. Any submission prior to July 5, 2021 may need to be corrected based on the results of the US EPA TRI new owner audit.

To ensure the most accurate submission possible, and avoid any possible corrections, Hexion respectfully requests an extension until July 5, 2021 to submit the CAO Emissions Inventory Form. For any questions or clarification, please contact me at [chuck.jacobs@hexion.com](mailto:chuck.jacobs@hexion.com) or Rebecca Truka at [rebecca.truka@hexion.com](mailto:rebecca.truka@hexion.com).

Best regards,

A handwritten signature in blue ink that reads 'Chuck Jacobs'.

Chuck Jacobs  
Site Leader
