Re: Cleaner Air Oregon (CAO) Emission Inventory Extension Request

Dear Geoffrey Tichenor:

Lane Regional Air Protection Agency (LRAPA) received your email sent October 25, 2021, on behalf of Hexion in Springfield, Oregon requesting a third extension to the submittal date for the Cleaner Air Oregon (CAO) Emissions Inventory. LRAPA understands that based on the extension request granted on June 29, 2021, the CAO Emission Inventory is due on December 1, 2021. This due date does not align with December 10, 2021, due date listed in the Stipulation and Final Order (SFO) No. 21-3839 signed on September 3, 2021. LRAPA agrees that the CAO extension approval should align with the requirements of the SFO. Based on the criteria listed in OAR 340-245-0030(3)(a) & (b), LRAPA approves this extension request as related to the CAO Emission Inventory.

The CAO Emissions Inventory Form ([AQ520](#)) is now due by December 10, 2021 under the authority in OAR 340-245-0030(3).

Please do not hesitate to contact LRAPA for any questions you may have regarding the emissions inventory and risk assessment process under CAO. LRAPA appreciates Hexion's efforts in complying with Cleaner Air Oregon.

Sincerely,

Max Hueftle, P.E., BCEE
Operations Manager
