Re: Approval of Cleaner Air Oregon Modeling Protocol (CAO MP)

Dear Sarah France,

Lane Regional Air Protection Agency (LRAPA) has completed the review of the modeling protocol (MP) submitted by The Willamette Valley Company in Eugene, Oregon as part of the Cleaner Air Oregon (CAO) program. In accordance with OAR 340-245-0210(1), this letter provides written notice that LRAPA has reviewed and approved the MP.

The Willamette Valley Company submitted the initial MP to LRAPA on January 21, 2022. At the request of LRAPA, The Willamette Valley Company submitted a revised MP on March 11, 2022, that refined building heights, updated stack parameters, and corrected minor errors as listed in LRAPA's letter to The Willamette Valley Company dated February 23, 2022.

The next step in the CAO review process is for The Willamette Valley Company to perform a Level 1 Risk Assessment under OAR 340-245-0050(8) and submit the modeling inputs and results to LRAPA no later than May 17, 2022, in accordance with OAR 340-245-0030(1)(d)(i).

Please contact LRAPA with any questions or clarifications regarding this letter. I can be contacted directly at either (541) 736-1056 ext. 233 or katie@lrapa.org. Failure to provide additional information, corrections or updates required by LRAPA may result in a violation of OAR 340-245-0030(1). LRAPA appreciates the efforts of The Willamette Valley Company in complying with Cleaner Air Oregon.

Sincerely,

Kathleen H Eagleson
