Re: LRAPA Approval of Cleaner Air Oregon Modeling Protocol and Risk Assessment
Work Plan (version 3.00)

Dear Chuck Jacobs:

Lane Regional Air Protection Agency (LRAPA) has completed the review of the modeling protocol (MP) and the risk assessment work plan (RAWP) submitted by Hexion, Inc. (200510) in Springfield, Oregon as part of the Cleaner Air Oregon (CAO) program. In accordance with OAR 340-245-0210(1), this letter provides written notice that LRAPA has reviewed and approved both the MP and the RAWP submitted on December 31, 2023 (version 3.00).

The next step in the CAO review process is for Hexion to perform a Level 3 Risk Assessment under OAR 340-245-0050(10) and submit the modeling inputs and results to LRAPA no later than September 21, 2024.

Let us know if you need any further information or assistance, or if you would like to meet to discuss this aspect of the CAO review. Failure to provide additional information, corrections or updates required by LRAPA may result in a violation of OAR 340-245-0030(1). LRAPA appreciates Hexion's efforts in complying with Cleaner Air Oregon.

Sincerely,

Max Hueftle, P.E., BCEE
Operations Manager
